

## Adding numbers written horizontally

When the numbers you want to add are not in vertical columns, rewrite them so that the units are under the units, the tens are under the tens, and so on. Always line up the units column *first*.

EXAMPLE:  $25 + 6 + 423 =$

REWRITE AS:

$$\begin{array}{r} 25 \\ 6 \\ + 423 \\ \hline 454 \end{array}$$

Add and check

1.  $93 + 55 + 34 =$

8.  $26 + 745 + 66 + 4,329 =$

2.  $23 + 18 + 96 =$

9.  $8,196 + 75,883 + 29 + 334 =$

3.  $607 + 12 + 344 =$

10.  $232 + 80,465 + 19 + 1,591 =$

4.  $58 + 752 + 29 =$

11.  $8,779 + 2,286 + 5,269 =$

5.  $53 + 618 + 9 + 47 =$

12.  $4,855 + 2,849 + 1,754 =$

6.  $7 + 24 + 806 + 63 =$

13.  $7,630 + 4,108 + 7,068 =$

7.  $982 + 3,507 + 73 + 184 =$

14.  $4,596 + 8,892 + 4,625 =$
